

18 November 1954

Anne Brierley

DCN WORK SHEET

25X1A

1. Reference Document and Subject: Export Licenses for the BUZZI firm2. DCN Case No.:

None

3. Summary:

The referenced report has been cleared for INFORMATION ONLY to the members of the DCN.

"The E. & C. Buzzi firm of 9 via Cobiauchi Intra, Novara Province was able to get export licenses in 15 days covering shipment of strategic machine tools to the Soviet Bloc. Previously it had experienced difficulty in getting licenses for the export of machinery to England. On Receipt of the licenses for the shipment to the USSR the machinery was immediately forwarded."

During February 1951, an automatic gear cutting machine was shipped by E. Buzzi Officine Meccaniche, Verbania, (Province of Novara), via Pontebba to Masini Import of Bucharest.

4. E/ST Suggestion:

This information is disseminated to the DCN members for review. If any action is advisable this Agency would appreciate your suggestions. Perhaps Rome should be notified. The first shipment was reported on 5 August 1954, which rules out the possibility that it was properly licensed because this type of machine tools was deleted from the international control list.

5. DCN Action:

*Feel not adequate to go to field. Perhaps further require*
